DETAILED ACTION

In the amendment filed on 03/01/07, the following have occurred: claims 1-2, 5-6, 9-10, and 13-16 are canceled; claims 3-4, 7-8 and 11-12 are amended, and claims 3-4, 7-8 and 11-12 are pending.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148

USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
 2. Ascertaining the differences between the prior art and the claims at issue.
 3. Resolving the level of ordinary skill in the pertinent art.
 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
2. Claims 3-4, 7-8 and 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Freedman et al (Freedman hereinafter, US PAT: 6,249,775).

Re claims 3, 4. Freeman further discloses a method for valuing financial asset services related to a loan comprising the steps of: identifying a service provider who is responsible for at least collection of a plurality of payments from a debtor to a creditor in connection with a financial account and for making a plurality of payments to the

Art Unit: 3692

creditor (i.e., third party servicers, see fig.1 element 28, also see col.5 lines 43-60).

However, Freeman does not explicitly disclose determining a financial asset services value as a percentage of the principal and interest associated with the financial account.

However, official notice is taken that determining a financial asset services value as a percentage of the principal and interest associated with the financial account is an old and well-known master-servicing scheme. Thus it would have been obvious to one of ordinary skill in the art to incorporate the master servicing teaching into Freeman in order to appropriately value financial asset services.

Re claim 7. Freedman further discloses the method for valuing financial asset services wherein said financial asset is a mortgage loan (see fig.1 elements 12 and 20)

Re claim 8. Freedman further discloses the method for valuing a financial asset service agreement as claimed in claim 4 wherein said financial asset is a mortgage loan (see fig.1 elements 12 and 20).

Re claims 11-12. Freedman further discloses the method for valuing financial asset services wherein said financial asset is a credit card account (freeman discloses closed end loan portfolio and loan portfolio in general (see the abstract), which certainly encompasses credit card account, since a credit card account is a form of loan portfolio).

Response to Arguments

3. Applicant's arguments with respect to claims 3-4, 7-8, and 11-12 have been considered but are moot in view of the new ground(s) of rejection.
